<b>----- DRAFT ----- WORK IN PROGRESS ----- DRAFT -----</b>					
<b>I. Politics, policy, civil society</b>					
<b>HIV/AIDS as political issue</b>					
<b>1. Promote HIV/AIDS as public health and social concern, keep the topic on the political agenda</b>	<p>EU presidencies addressing HIV/AIDS as priority issue</p> <p>Inclusion of , HIV/AIDS cooperation in future agreements with third countries</p>	<p>Political exchange of Commission / Commissioners: HIV as general topic in public health agenda; EU presidencies priorities;</p> <p>specific initiatives such as ARV access (human rights, harm reduction, travel restrictions e.g. US... actual problems);</p> <p>World AIDS Day activities by COM;</p> <p>Work plans of EC agencies</p> <p><b>Awareness:</b> ECDC activities (country visits, surveillance, epidemiology, basis for policy recommendations), WAD</p>	<p>EU presidencies;</p> <p>Council conclusions and EP report on the COM communication</p> <p>Implementation of agreed actions (action plan and communication)</p> <p>Co-funding</p> <p>Policy development</p> <p>legislation (anti-discrimination, health policies ...) and budgets for prevention, treatment,</p>	<p>Advocacy, Lobbying e.g. for prioritisation of EU Presidency programs</p> <p>Active position in Policy development</p> <p>Anti-discrimination work</p> <p>Regular monitoring and evaluation of own and others' activities</p>	<p>International commitments on HIV/AIDS</p> <p>Implementation of agreed actions (MDG; GF activities, ...)</p> <p>Co-funding (civil society, etc...)</p> <p>Promotion of civil society</p>

		<p>activities;</p> <p>EC role at <b>Vienna</b> conference;</p> <p><b>Mainstreaming:</b> interservice groups; health in all policies; external relations policies, research policy agenda;</p> <p><b>Agreements with third countries:</b> ToR with Russia – dialogue on public health, bilateral ENP action plans (Ukraine and Moldova with special section on HIV); new association agreements between ERU and Ukraine and Moldova</p> <p><b>Enlargement process:</b> HIV/AIDS included in the chapters on public health</p> <p>Best use of Dublin monitoring results to strengthen political leadership</p>	care and support		
<b>2. Regular HIV/AIDS Think Tank and Civil Society</b>	Number of meetings dissemination and	Organisation of the <b>regular meetings</b> , setting agenda, facilitating discussions and plans,		Exchange of information and cooperation between stakeholders on	

<p><b>Forum meetings</b></p>	<p>implementation of results from meetings</p> <p>Actions agreed</p>	<p>also between meetings</p> <p>Focus on survey of national responses (constraints, cooperation, policies, ....)</p> <p><b>Funding</b> joint actions/projects through Health programme – priorities set along the action plan</p> <p>Broad dissemination of TT minutes (intra COM, MoH – proposal UNAIDS)</p>		<p>national and international level</p>	
<p><b>3. Tackle discrimination in relation to HIV status</b></p>	<p>Anti discrimination laws in place</p> <p>Level of discrimination in relation to HIV status</p>	<p>monitoring...level and degree of anti-discrimination legislation implemented in EU MS (see ref. in communication, labour related legislation);</p> <p>COM-TT meeting on integrated HIV response with national reps not from health departments (proposal CSF)</p> <p>Contribution of discrimination to the propagation of HIV in Europe: a project for the FRA?</p> <p>Funding possibilities through</p>	<p>EU anti-discrimination policies translated into national law and applied accordingly; survey;</p>	<p>fight discrimination and its effects: projects? Data? Examples?</p>	

		COM instruments (e.g. DPI)			
<b>4. Regular meetings of National AIDS Coordinator meetings to share best practices, contribute to policy coherence</b>	Meetings organised	Framework needs to be discussed – EU presidency as in 2007?; or extended TT meeting (CSF proposal)	MS to volunteer		
<b>HIV/AIDS policies and strategies</b>					
<b>5. Development, implementation, monitoring and evaluation of targeted , regional, national and supranational HIV/AIDS policies</b>	Number of explicit HIV/AIDS policies in place, scale and quality of implementation  Monitoring of existing plans	Dublin declaration monitoring report 2010 gives country based data on this – policy recommendations;  Promotion of CS involvement in national response (with 3 <sup>rd</sup> countries).	Strengthen implementation of HIV programmes of public health programmes with relevance for HIV where needed – reporting.  Do national / international programmes contribute effectively to the reduction HIV	Active contributions to national, regional policies – involvement in country coordination.	

			transmission and to improve the situation of PLWHA – reporting.		
<b>Civil society</b>					
<b>6. Support of civil society through funding and legal support at EU and national levels</b>  <b>Involve and consult civil society in development and implementation of HIV policies</b>	Engagement of NGOs in EU, national and regional coordinating committees and policy bodies,  NGOs input into programme coordination and policy making	Direct grants to NGOs (health programme and other instruments)  CSF meetings and cooperation with CSF on various activities (ARV initiative, communication, ECDC, ...)	Funding and involvement CS		Promotion of CS in adequate activities on country and international level
<b>The private sector</b>					
<b>7. Intensify the cooperation with private sector – business and media</b>  <b>Work with pharmaceutical</b>	Coverage of HIV in workplace programmes  Presence of HIV issues in media  Number of ARV	Revitalise ARV initiative 2008; check with MS first where need exist. (take up (regular) discussions with EFPIA)  Which PPP with a specific focus on HIV (prevention, access) are	Which PPP with a specific focus on HIV are in place and what impact?	Information on shortcomings and further participation in initiative.	

<b>industry to improve access and availability of treatment across Europe</b>	price rebate agreements  Treatment coverage	in place and what impact?			
<b>II. Prevention</b>					
<b>Targeted and combination prevention</b>					
<b>8. Identify prevention needs targeting local realities as key in regional/national HIV policies</b>  <b>Targeted prevention to most at risk groups as central focus of national prevention strategies</b>  <b>Improve exchange of best practice, information and education on</b>	Percentage of population informed about transmission modes and prevention measures  Access to comprehensive prevention services and commodities  Accessibility and affordability of condoms	Eurobarometer?  ECDC survey  HP projects  (HIV in Europe, testing, recommendations promoted across Europe – CSF proposal)  Prevention as regular topic in Think Tank meetings;  Specific meeting – combined	Data and assessment from MS  Extend prevention measures wherever need and possible	(HIV in Europe , testing, recommendations promoted across Europe – CSF proposal)	

<b>HIV and HIV prevention</b>		with conference - focusing on prevention in Europe. Gaps and needs?			
<b>HIV transmission and risk behaviour</b>					
<b>9. Strengthening of behavioural surveillance to develop measures leading to reduced risk behaviour</b>  <b>In depth analysis of trends and dynamics in sexual and drug use related risk behaviour</b>	Improved understanding of behavioural parameters contributing to the epidemics  Adaptation of policies and prevention measures  Reduction of new HIV cases in most at risk populations	ECDC and EMCDDA work plans	Data provision, cooperation with EU agencies and IO		
<b>III. Priority regions</b>					
<b>Eastern European Member States, ENP countries and the Russian Federation</b>					
<b>10. Achieving universal access</b>	ARV coverage	Political support to MS and third countries ;	Provision of adequate services and budgets;	Monitoring and advocacy for	Monitoring and advocacy;

<p><b>to voluntary testing, treatment and care</b></p> <p><b>Introduction and implementation of effective harm reduction measures for prevention of HIV</b></p> <p><b>Prevention and integrated HIV, TB and co-infection treatment, including in prisons and other particular settings</b></p>	<p>Coverage of IDU specific harm reduction programmes</p> <p>Coverage of integrated prevention and treatment services in prisons</p>	<p>Funding possibilities through COM instruments</p> <p>TB action plan – implementation – internal COM cooperation</p> <p>Promotion of evidence based prevention/ harm reduction measures in MS and beyond – conference?</p>	<p>Activities to reduce of discrimination and stigmatisation</p> <p>Implementation of harm reduction measures</p> <p>Integration of TB and HIV services (treatment, testing, services, infrastructures,...)</p> <p>Transposition of existing evidence to all settings in need</p>	<p>services</p>	<p>Conference on price of drugs in Europe and the neighbouring countries (UNAIDS);</p>
<p><b>ENP countries and the Russian Federation</b></p>					
<p><b>11. Promote cooperation of EU and neighbouring countries on</b></p>	<p>HIV/AIDS as an agenda point in regular dialogue with relevant ENP countries</p>	<p>Try to include HIV in country action plans and MoU/agreements with third countries</p>	<p>Bi-Multilateral agreements to strengthen response to HIV</p>		<p>Dialogue with EC: e.g. ongoing with UNAIDS</p>

<b>HIV/AIDS</b>  <b>Invitation and involvement of neighbouring countries in HIV related meetings at EU level</b>	HIV/AIDS cooperation included in new bilateral agreements with ENP countries	TT and CSF meetings, and other stakeholder groups of other DGs (specify)			
<b>12. Strengthen the surveillance by stepping up cooperation between the ECDC and ENP institutions</b>	Increased interaction with and involvement of ENP in ECDC programmes	ECDC to involve ENP countries in their activities: ex. Dublin declaration monitoring exercise; HIV and STI national contact point meetings; exchange of expertise	exchange of expertise, knowledge		
<b>13. High level conference(s) on HIV and human rights in cooperation with neighbouring countries</b>	Conference and commitments	Discussion with UNAIDS already started, target 2011;		Ensure participation of qualified CS organisations from the region	UNAIDS
<b>14. Exchange programmes between Member States and neighbouring countries for social and NGO training of</b>	Number of exchange programmes	Health programme priorities?  Twinning projects thru other EC instruments			

medical and staff					
<b>IV. Priority groups</b>					
<b>Men having sex with men</b>					
<b>15. Intensify the promotion of safer sex behaviour among MSM</b>	HIV incidence among MSM  prevalence rates of MSM	review of impact of existing projects to amend future priorities in this area  Health programme priorities	Adequate school curricula;  training of medical staff,	Outreach work, counselling, data gathering, primary and secondary prevention activities;	
<b>Information on HIV prevention integrated in sexual and reproductive health education</b>	integrated school curricula on health	ECDC: data  (General priority groups: raise issues in ISG, issues for work plan of FRA – proposal CSF)		(Pan-european MSM NGO network – funded and supported by EU? – CSF proposal – apply health program)	
<b>16. Intensify implementation of voluntary counselling and testing programs (VCT) among MSM and other most at risk groups</b>	Incidence of new HIV infections among MSM  Rate of late diagnoses among MSM  HIV testing rates among MSM	Projects co-funded through HP			
<b>Increase outreach work to most at risk</b>	Rate of unknown HIV status				

<b>groups</b>					
<b>Injecting drug users</b>					
<b>17. Implementation of harm reduction measures for prevention of HIV and drug dependency</b>	<p>Coverage of syringe exchange and clean needles</p> <p>Coverage of substitution treatment programmes</p>	<p>EMCDDA Health Programme projects</p>	<p>implementation of adequate activities</p>		
<b>Migrants and mobile populations</b>					
<b>18. Targeted prevention measures and access to services and treatment for migrants</b>	<p>Number of programmes and policies developed and implemented</p>	<p>See ECDC report on HIV and migration</p>	<p>implementation of adequate activities</p>		
<b>19. Abolish HIV associated travel and residence restrictions</b>	<p>Number of countries/regions with restrictions</p>	<p>Political support – follow-up French presidency initiative</p>	<p>MS responsibility</p>		
<b>V. Improving the knowledge</b>					
<b>Research</b>					

<b>20. Promote research for the development of new prevention and treatment solutions for HIV and co-infections</b>	projects and programmes funded	Health programme; research programme priorities	Co-funding		
<b>21. Social and behavioural research, socio-economic analysis</b>	Studies, reports, recommendations	ECDC work plan; Health programme;			
<b>Medicine</b>					
<b>22. Improve capacities and knowledge of medical staff with regards to HIV/AIDS; larger dissemination of clinical best practice</b>	Broad application of international testing and treatment guidelines				
<b>Surveillance</b>					
<b>23. Complete</b>	Full picture on all	ECDC work plan 2011 and			

<b>surveillance of all relevant aspects on HIV/AIDS and associated infections</b>  <b>(strengthen behavioural surveillance)</b>	aspects of HIV epidemic in Europe	beyond, cooperation with WHO Europe and UNAIDS; identify gaps in surveillance			
<b>VI. Monitoring and evaluation</b>					
<b>Commitments of Dublin, Vilnius and Bremen declarations</b>					
<b>24. Regular monitoring on scale and quality of implementation</b>	Progress reports	ECDC: regular monitoring and evaluation exercise, depending on outcome of 2010 report and recommendations – follow up of actions translated into national context			
<b>Implementation of this action plan</b>		ECDC: develop framework, start M+E in 2011;			
<b>25. Ongoing monitoring on scale and quality of</b>	regular updates on action plan	Think Tank meeting regular agenda point; update by all stakeholders on implementation measures; prioritisation of	Updates on implementation of activities in line with action plan.	CSF meetings updates	Information on news and new projects / programmes to COM and TT/CSF

<b>implementation</b>		activities following outcome; Summary reports to TT on new developments			
<b>26. External evaluation in 2012</b>	Evaluation report end 2012	ECDC and external partners			External expertise?
