

ACHIEVE

ASSOCIATIONS COLLABORATING ON HEPATITIS TO
IMMUNIZE AND ELIMINATE THE VIRUSES IN EUROPE

ACHIEVE COALITION

Our members

- European Liver Patients' Association
- Correlation Network
- World Hepatitis Alliance
- European AIDS Treatment Group
- Hepatitis B and C Public Policy Association
- IS Global
- Viral Hepatitis Prevention Board
- EASL International Liver Foundation

Supported by
Abbott, Cepheid, Gilead, MSD

Our mission

To advance the fight against viral hepatitis B and C in line with the WHO Global Health Sector Strategy, the WHO Europe Action Plan and the UN Sustainable Development Goals and achieve elimination by 2030.

ACHIEVE

ASSOCIATIONS COLLABORATING ON HEPATITIS TO
IMMUNIZE AND ELIMINATE THE VIRUSES IN EUROPE

AREAS FOR POLICY ACTION

The ACHIEVE coalition has defined the following 6 priority areas for action

1. EU governments to reaffirm **elimination goal by 2030** and make commitment to its implementation.
2. Calibrate the **true scale of viral hepatitis in Europe** in line with the European Commission's commitment to support the **implementation of the SDGs by monitoring**, reporting and reviewing progress towards their delivery.
3. **Measure and raise awareness of viral hepatitis** amongst the population.
4. Improve **diagnosis in primary care** setting.
5. **Improve diagnosis and access to guideline-conform treatment** amongst defined key groups, such as people who inject drugs (PWIDs), prisoners and specific groups of migrants, whilst addressing stigma.
6. Provide sustainable, affordable, universal **access to the tools for elimination.**

FOCUS 2018

Advocate to increase the political willingness to act on viral hepatitis elimination, especially in the area of establishing effective **monitoring and surveillance.**

ACHIEVE can help stakeholders in the following:

- **Raise political awareness:** Get issues on political agendas and educate policy makers.
- **Make research digestible:** Translate scientific reports into information for policy makers.
- **Search for complementarity:** Search for opportunities for complementing each other's work to avoid duplicating efforts.
- **Be multi-sectoral:** Cooperate within and across different institutions.
- **Link to SDGs and health systems:** Emphasize that addressing viral hepatitis can benefit and help achieve other SDGs, highlighting the economic and social dimension of the viral hepatitis burden.

ACHIEVE

STRATEGIC VISION FOR THE ACHIEVE COALITION

Objective

European policy makers demonstrate support for the implement of the WHO Strategy, WHO Europe Action Plan for viral hepatitis elimination and UN SDGs

Ambitions

1. Secure support of an EU Presidency to deliver policy action in 2019
2. Leverage existing policy and political opportunities
3. Increase awareness of the urgent need for action
4. Generate and share policy recommendations that offer solutions for policy makers

Actions

1. High-level outreach to future EU Presidencies and countries of strategic relevance
2. Making use of policy developments at EU level, including implementation of the UN's SDG
3. Capitalising on advocacy milestones, such as WHD

The International Coalition to Eliminate Hepatitis B

AIM

- **Safe, affordable, scalable and effective cure, available to all persons living with CHB.**

VISION

- **International, independent, research-based and patient-centered forum**

(Provisional) Governing Board

STRUCTURE

Clinical Sciences

ACTIVITIES 1/2

- HBV cure scientific strategy publication
 - April 2018 @ EASL
- Targeted HBV cure research projects
 - cccDNA assay standardization
 - POC diagnostics/assays
 - Standardized assays networks
- HBV cure research promotion to increase resources for elimination and foster collaborations worldwide

ACTIVITIES 2/2

Ensure cure preparedness and translation of scientific discoveries into health outcomes via 3-pillars:

1. Better clinical care

- HBV cure mathematical modelling
- Clinical services delivery

2. Community engagement

- Community Scientific Literacy
- Clinical trials design & engagement

3. Policy changes

- HBV response gaps analysis
- HBV research funding mapping
