

## 2016 United Nations political declaration on ending AIDS 2020 Global Prevention Targets and Commitments

- **Impact:** reduce the number of people newly infected globally to fewer than 500,000 (75% reduction against 2010 targets)
- **Coverage:** ensure that 90% of people at risk of HIV infection have access to comprehensive HIV prevention services, including key populations everywhere
- **Outputs:** ensure that 3 million people at high risk access PrEP (equals approximately 10% of people at high risk)
- **Policy:** remove policy barriers to access to prevention services and commodities; eliminate gender inequalities and end all forms of violence and discrimination against women and girls, people living with HIV and key populations
- **Financing and sustainability:** allocate 'one quarter' of total HIV budget for prevention; ensure that at least 30% of service delivery is community-led

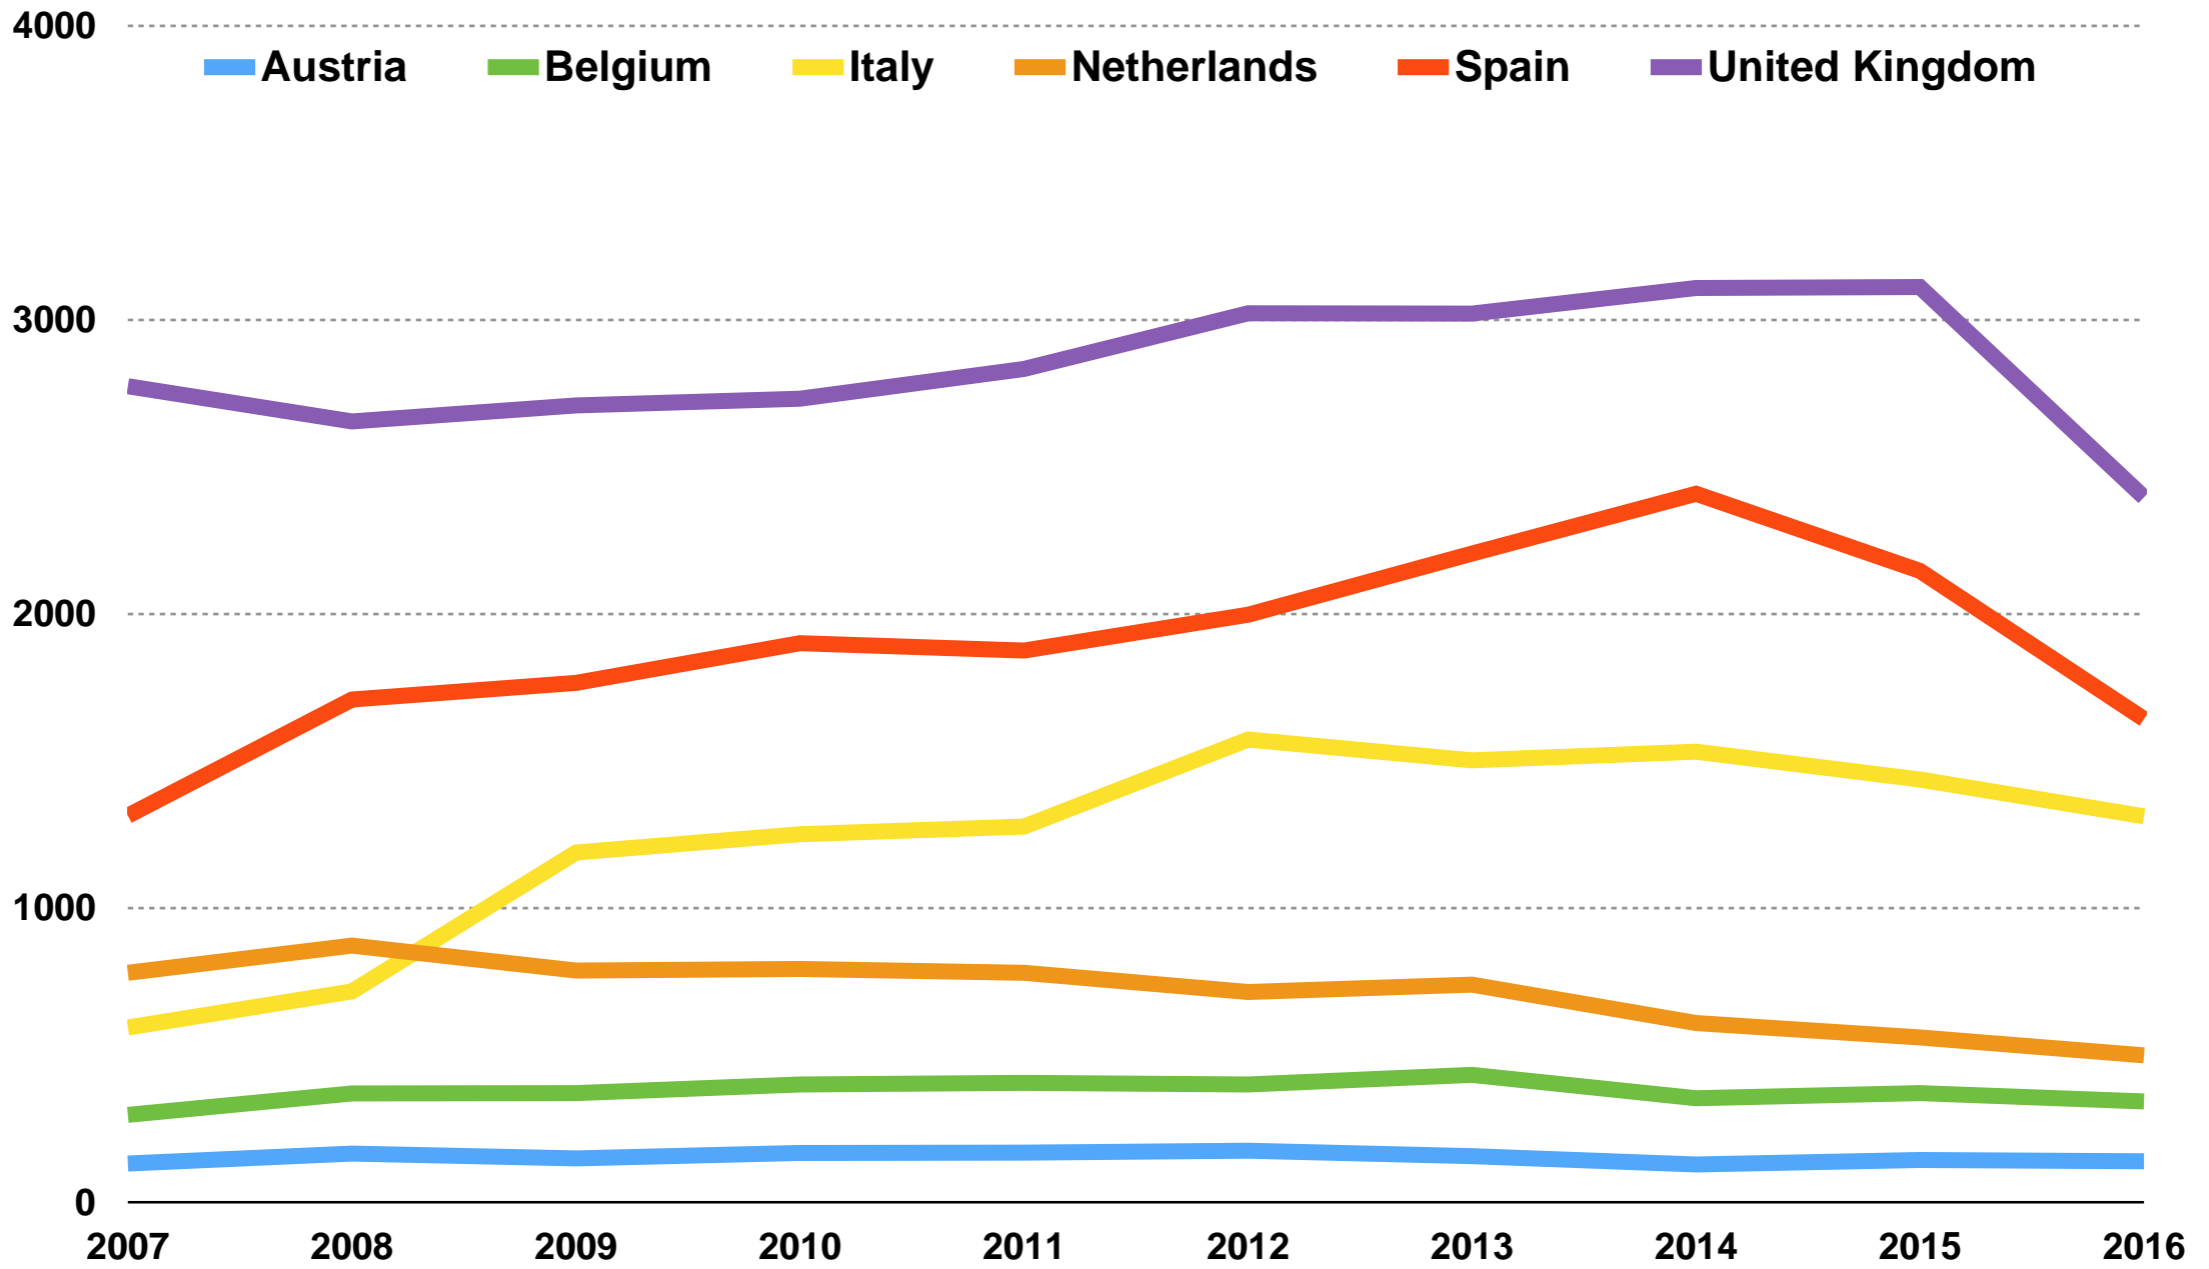

# 2016 UN Political Declaration on Ending AIDS EU/EEA status, 2020 prevention targets

- New HIV infections among men who have sex with men\*
- New HIV infections related to heterosexual transmission\*
- New HIV infections among people who inject drugs\*

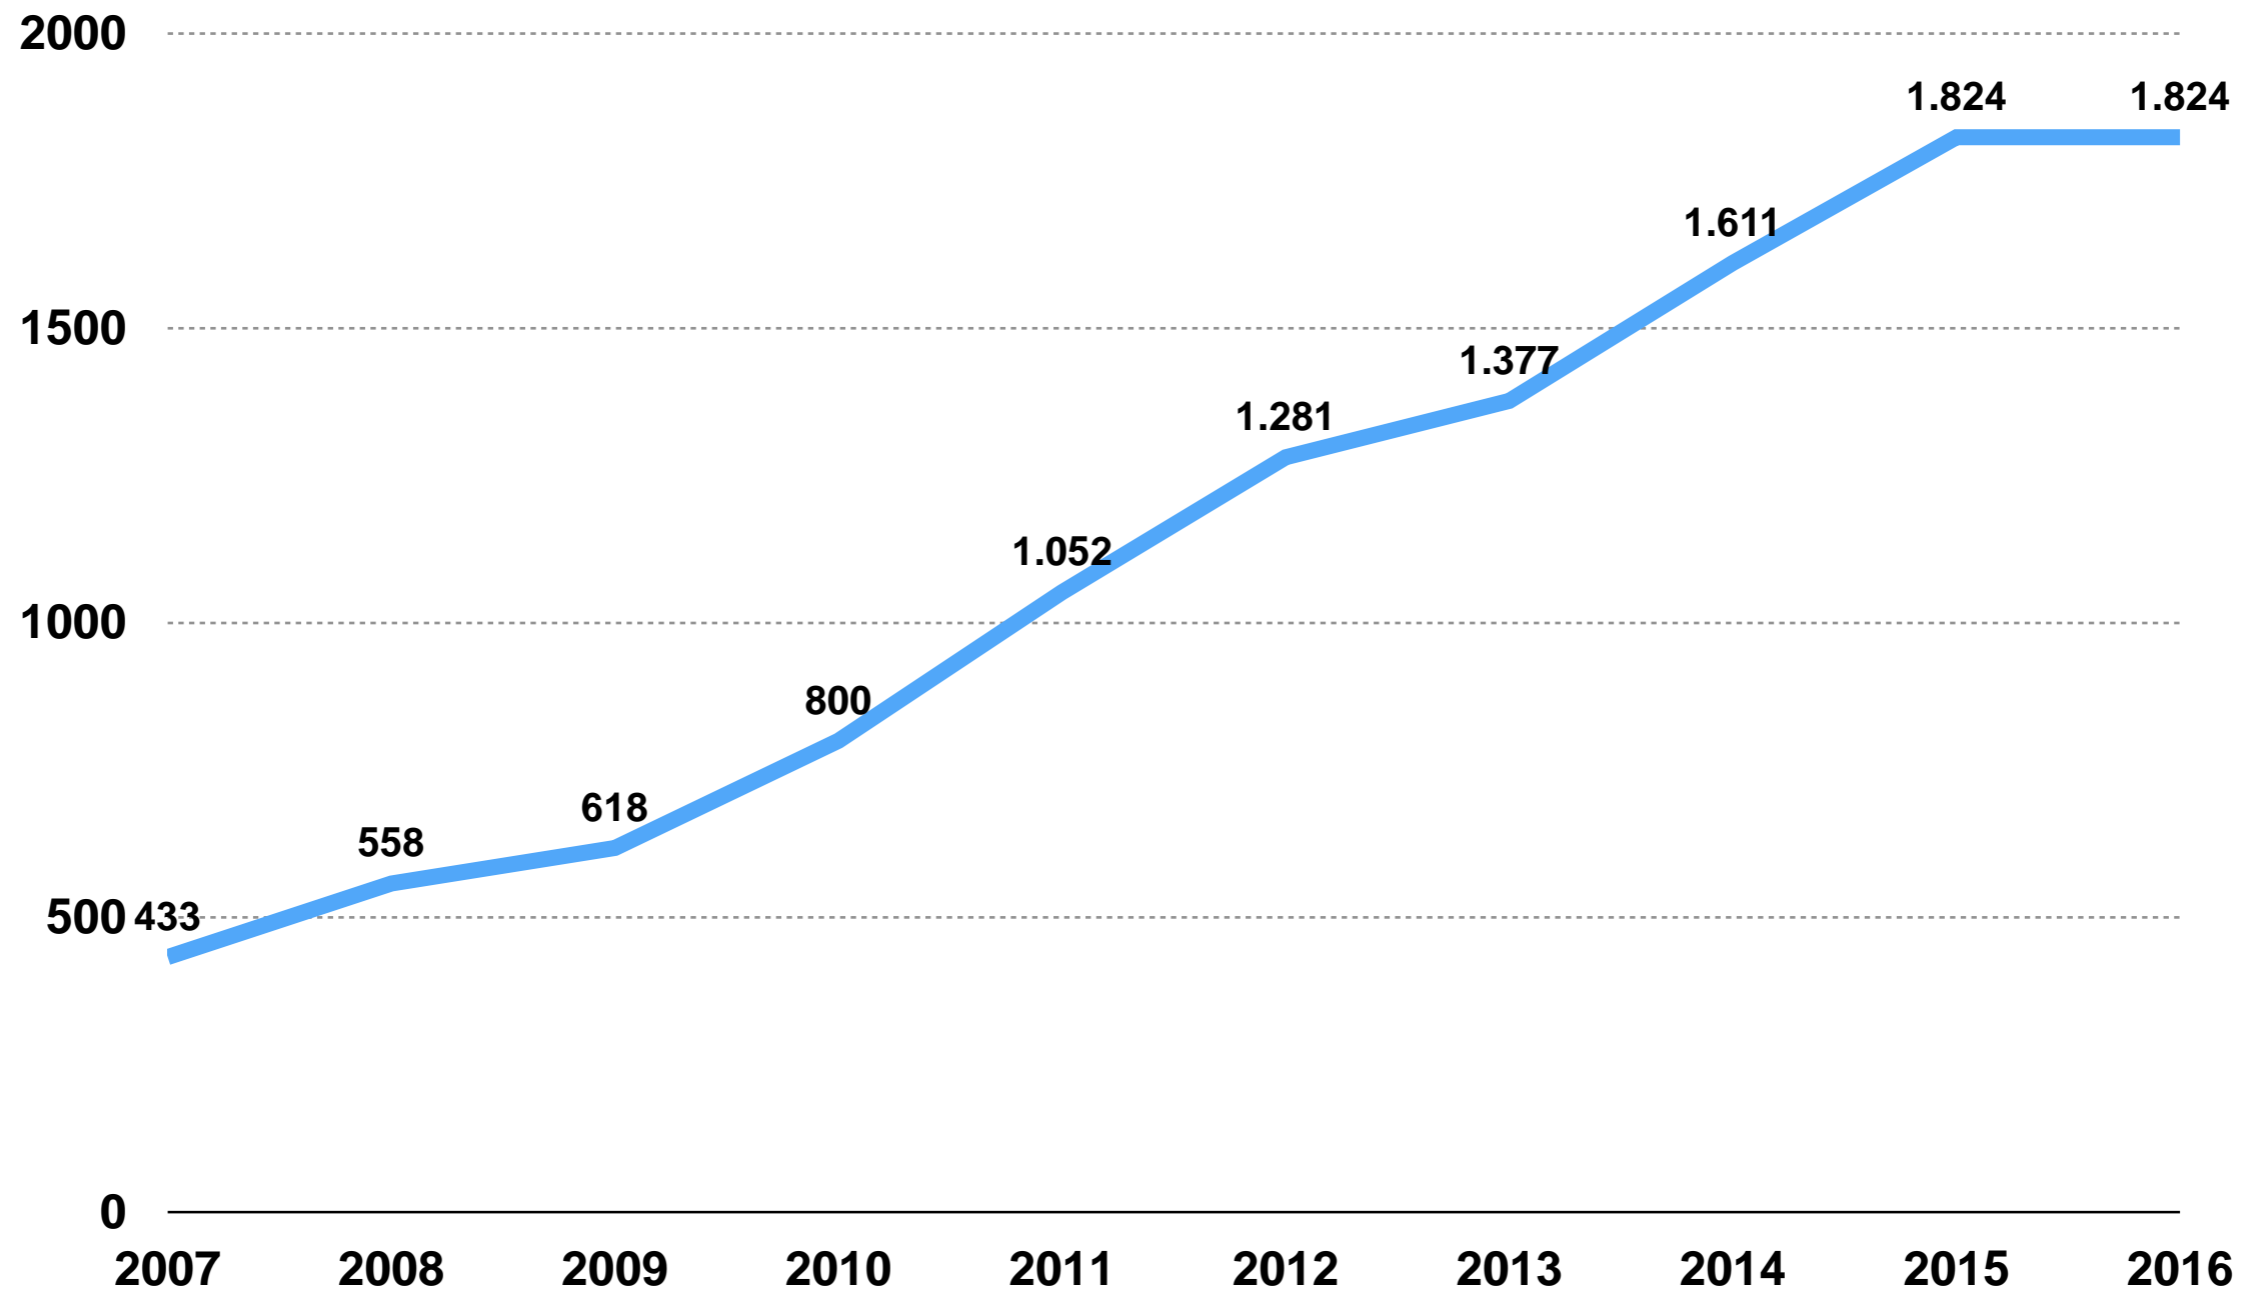

\*ECDC 2017

# New HIV diagnoses among men who have sex with men, select countries 2007-2016, ECDC 2017

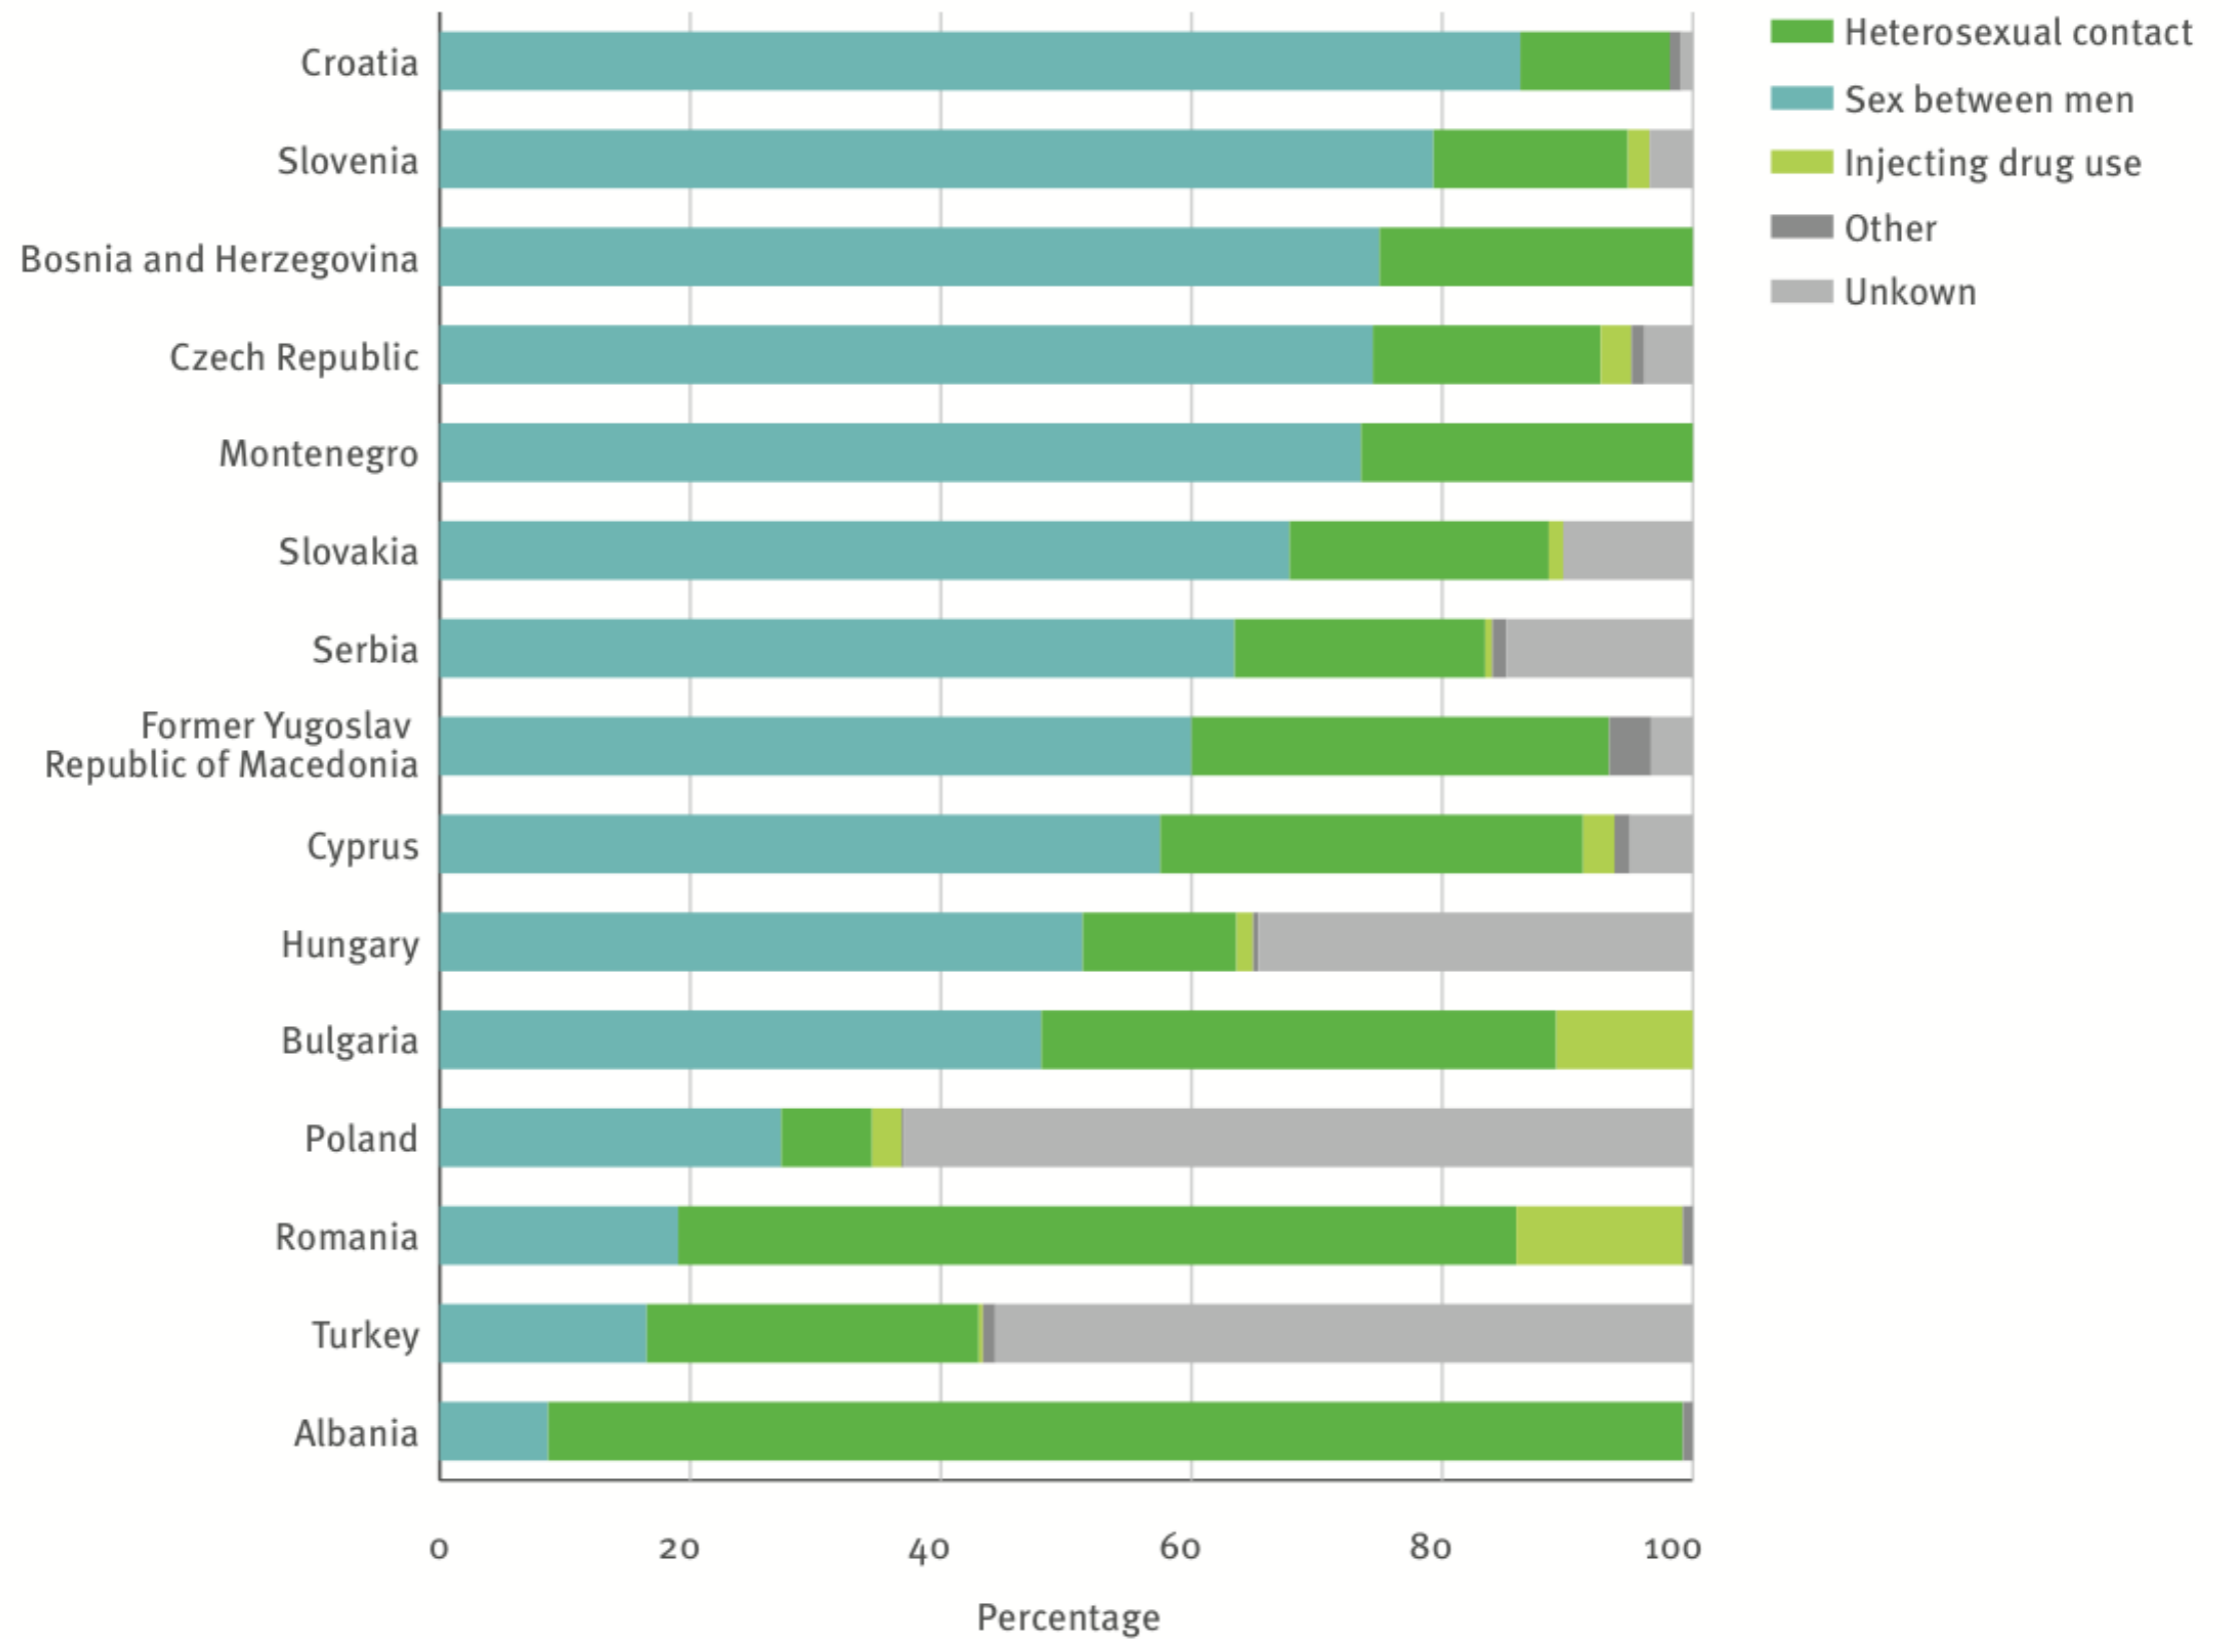

# New HIV diagnoses among men who have sex with men in newer EU member states and candidate countries, 2007-2016\*

\*ECDC 2017

**Figure 2.14: New HIV diagnoses by country and transmission mode, Centre, 2016 (n=5 772)**

# What is holding us back?

- Gaps in political leadership
- Policy gaps
- Gaps in HIV prevention financing
- lack of systematic implementation at scale

# The Global Coalition for HIV prevention

## - European government founding members

- France
- Germany
- the Netherlands
- Sweden
- Ukraine
- United Kingdom

# What's next? - some steps

- Meeting on men who have sex with men in Central and South-Eastern Europe - convened by AIDS Action Europe
- Sessions on HIV in Europe and men who have sex with men proposed for Amsterdam conference
- PrEP Summit - convened by PrEP in Europe initiative
- EU staff working document
- Building a European Prevention Coalition?

# Some possible questions

- What should be done to build political leadership to accelerate prevention across Europe?
- What should be done to bridge the prevention gap between the western and the eastern parts of the EU/EEA?
- Would a European prevention coalition of governments and civil society make a difference?
- What should civil society, governments, the EU institutions and the UN do?
