# Composition of the CSF

- Advocacy organisations
- International networks
- International Clinicians organisation
- Key population representing organisations
- National and international organisations
- Patient organisations
- Service provider organisations

# Mission

Civil Society Forum strengthens the **advocacy** for the rights of the key communities living or affected by the three infections by addressing short-comings in the response to the epidemics, sharing knowledge and consensus building on standards to address critical and sensitive issues, as well as joint advocacy on national level where appropriate.

# Next steps

- Future meetings
- Further collaboration
- Election procedures
- Pressing advocacy issues
