

Stigma and discrimination

Stigma monitoring is a gap.

Dublin Declaration monitoring,
advisory group meeting:
Stigma and discrimination one
priority for 2021 reporting and
beyond

CSF stigma and discrimination
& Dublin Declaration WG

-> Two surveys, one in
collaboration with EACS for
clinicians / health care
professionals about stigma in
health care settings and one
with AAE&EATG for community

These surveys to be repeated
every couple of years?
To have one or two reports,
also combining with the data
from governments.

On going, moving forward
Translations, distribution,
promotion?
