International Migrants' Day 2011

Giving a face to an integrated society!

Saturday, 17 December 2011
at the
Congress Centre Hanover

Ethno-Medizinisches Zentrum e.V.

Invitation

Diversity is our future model for integration. Health, education, work, civic society and language are the ways to achieve it.

Many integration or action plans, ideas and concepts as well as good examples of best practice have been developed. We want to discuss with you and reflect on the challenges that had been confronted, the resources that were available and the successes that have been achieved. We therefore cordially invite you to the "4th International Migrants' Day Conference". We wish to provide a forum concerning integration topics such as health, education, work and social affairs. This year, too we expect hundreds of participants, professionals and other interested people from Germany and our European neighbouring states.

It is necessary to give a face the opportunities and successes of integration!

We also wish to honour successful migrants. A young polish woman who lives in Copenhagen and Tallinn will be nominated "Young Social Entrepreneur of the Year" for her outstanding achievements in taking a stand for HIV-positive migrant mothers. Further prizes will be awarded to migrants from the fields of health, education and work.

We look forward to seeing you in Hanover!

Ramazan Salman
