

Global AIDS Strategy 2021-2026

UNAIDS – strategy development and follow up action

EU HIV/AIDS, HEP, TB CSF MEETING 04.03.2021

Ferenc Bagyinszky
AIDS Action Europe

End Inequalities. End AIDS. Global AIDS Strategy 2021-2026

In line with SDGs, 2025 targets and vision of Three Zeros

Strategic priorities with result areas:

- Maximize equitable and equal access to HIV services and solutions
- Break down barriers to achieving HIV outcomes
- Fully resource and sustain efficient HIV responses and integrate them into systems for health, social protection, humanitarian settings and pandemic responses

Regional profiles

2025 HIV targets and commitments

95 targets:

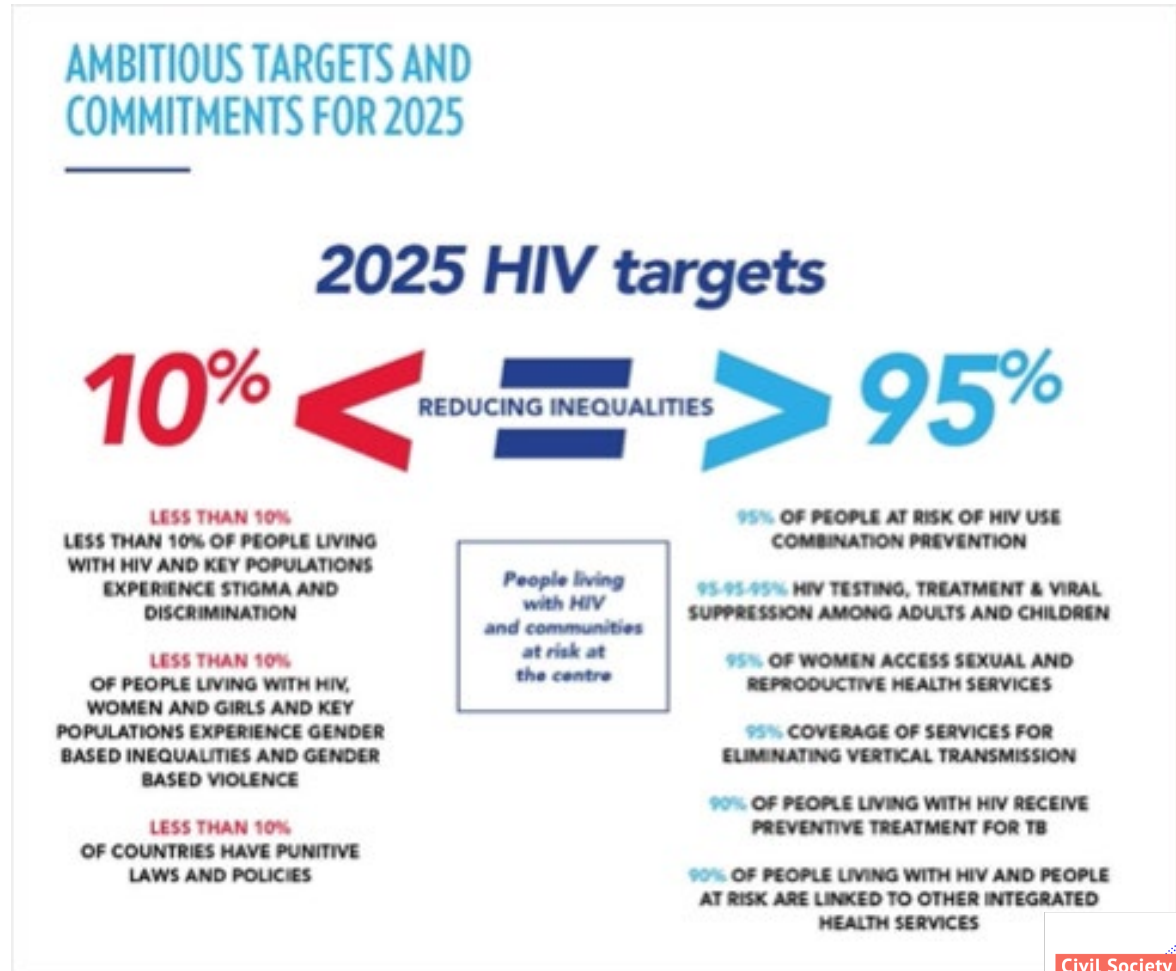

- Combination prevention
- Treatment targets
- Women access SRHR services
- Service coverage – eliminating vertical transmission

90 targets:

- PLHIV receiving TB preventive treatment
- Linkage to integrated health services

10 targets:

- Stigma and discrimination
- Gender based inequalities and GBV
- Punitive laws and policies

Regional profiles – Eastern Europe and Central Asia

Regional priority actions:

- *Urgently expand access to combination HIV prevention*
- *Close gaps in the testing and treatment*
- *Institutionalize community-led services into national health care and HIV prevention systems*
- *Remove discriminatory and punitive laws, policies and structural barriers*
- *Transform harmful gender norms and reduce gender-based violence*

Regional profiles – Western and Central Europe and North America – part 1

Regional priority actions:

- *Increase domestic financing*
- *Develop and implement national plans*
- *Improve testing strategies*
- *Expand HIV prevention services, including PrEP and harm reduction.*
- *Improve quality of life of people living with HIV by overcoming stigma and discrimination in health care services*
- *Provide universal access for all, including key populations and migrants, to stigma-free quality HIV prevention, treatment and care services*

Regional profiles – Western and Central Europe and North America – part 2

Regional priority actions (continued)

- *Provide equal access to and the continuation of HIV prevention, treatment and care services for people in closed settings*
- *Provide equal access to and the continuation of HIV prevention, treatment and care services for people in closed settings*
- *Remove legal, regulatory and financial barriers*
- *Remove punitive and discriminatory laws and policies*
- *Increase community engagement and leadership in local responses*
- *Improve the quality and timeliness of data collection, reporting and use*
- *Increase investments in HIV research*

MAJOR OPPOSITION AND ISSUES

- *“Red flags” for member states in the strategy:*
 - *Human rights (right to health, right to prevention treatment, SRHR etc.)*
 - *Key populations named and listed*
 - *Civil society – role of, definition of, and funding for*
- *Broader context:*
 - *Limiting UNAIDS mandate to HIV i.e. not human rights*
 - *Push to keep gender binary*
 - *Make certain key populations disappear in national context*
 - *Challenging processes at PCB, place of CS at the table*

ADVOCACY POINTS AND OPPORTUNITIES

- *Strong and progressive strategy*
 - *needs welcoming and applauding*
 - *Broad sign up by member states*
 - *Focus on adequate funding: UBRAF, GFATM, national programmes, civil society*
- *UNAIDS PCB Special session – March 24-25 (Pre-meetings from March 9)*
 - *Register as observing NGO – Friday March 5th 6pm CET*
- *UNGA High Level Meeting on HIV/AIDS – June 8-10, 2021*
 - *Civil society participation*
 - *Advocacy at national level: broad signing up for strategy*
