

New MFF: EU BUDGET for the FUTURE

Wolfgang PHILIPP, European Commission, DG SANTE
Civil Society Forum and Think Tank
Brussels, 06-07 November 2018

PART A

The Health strand within the European Social Fund ESF+

#EUBudget

European
Commission

ESF+

(in)direct management

- *Employment and Social
Innovation strand*

- **Health strand**

€1,2 billion

€761 million

€413 million (ring fenced)

Stronger **emphasis on Health in the EU
Social Agenda**

**Better coordination with all health-related
investments** in shared management part of
ESF+

Specific objectives of the Health strand within ESF+:

- support health promotion and disease prevention,
- contribute to effectiveness, accessibility and resilience of health systems,
- make healthcare safer,
- reduce health inequalities,
- protect citizens from cross-border health threats,
- and support EU health legislation.

Implementation

- Implementation under **responsibility of DG SANTE** and under authority of Commissioner responsible for Health
- Direct management
- Rules of the **Financial Regulation** will apply
[Common Provision Regulation not applicable]

Commission assisted by Health Authorities of Member States

Main interlocutor: **Steering Group for Health Promotion and Disease Prevention**

Upstream and more interactive/productive **consultations** compared to current arrangements

European
Commission

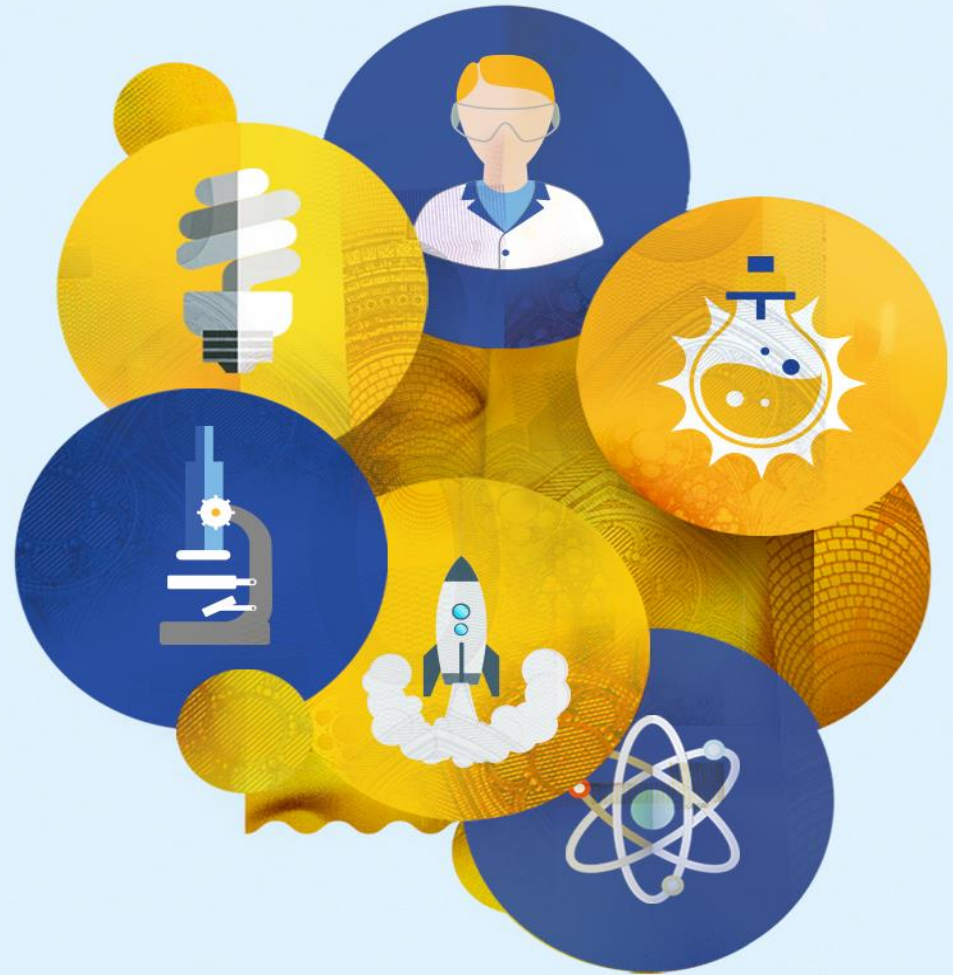

Advantages of incorporating Health within ESF+

- More coherence between shared and direct management
- Health Strand develops and tests new approaches and then ESF shared management instruments fund the rolling out
- Possibility to consult the National Health Authorities on **other health-supporting investments within ESF+** and other programmes
- Holistic approach to health

PART B

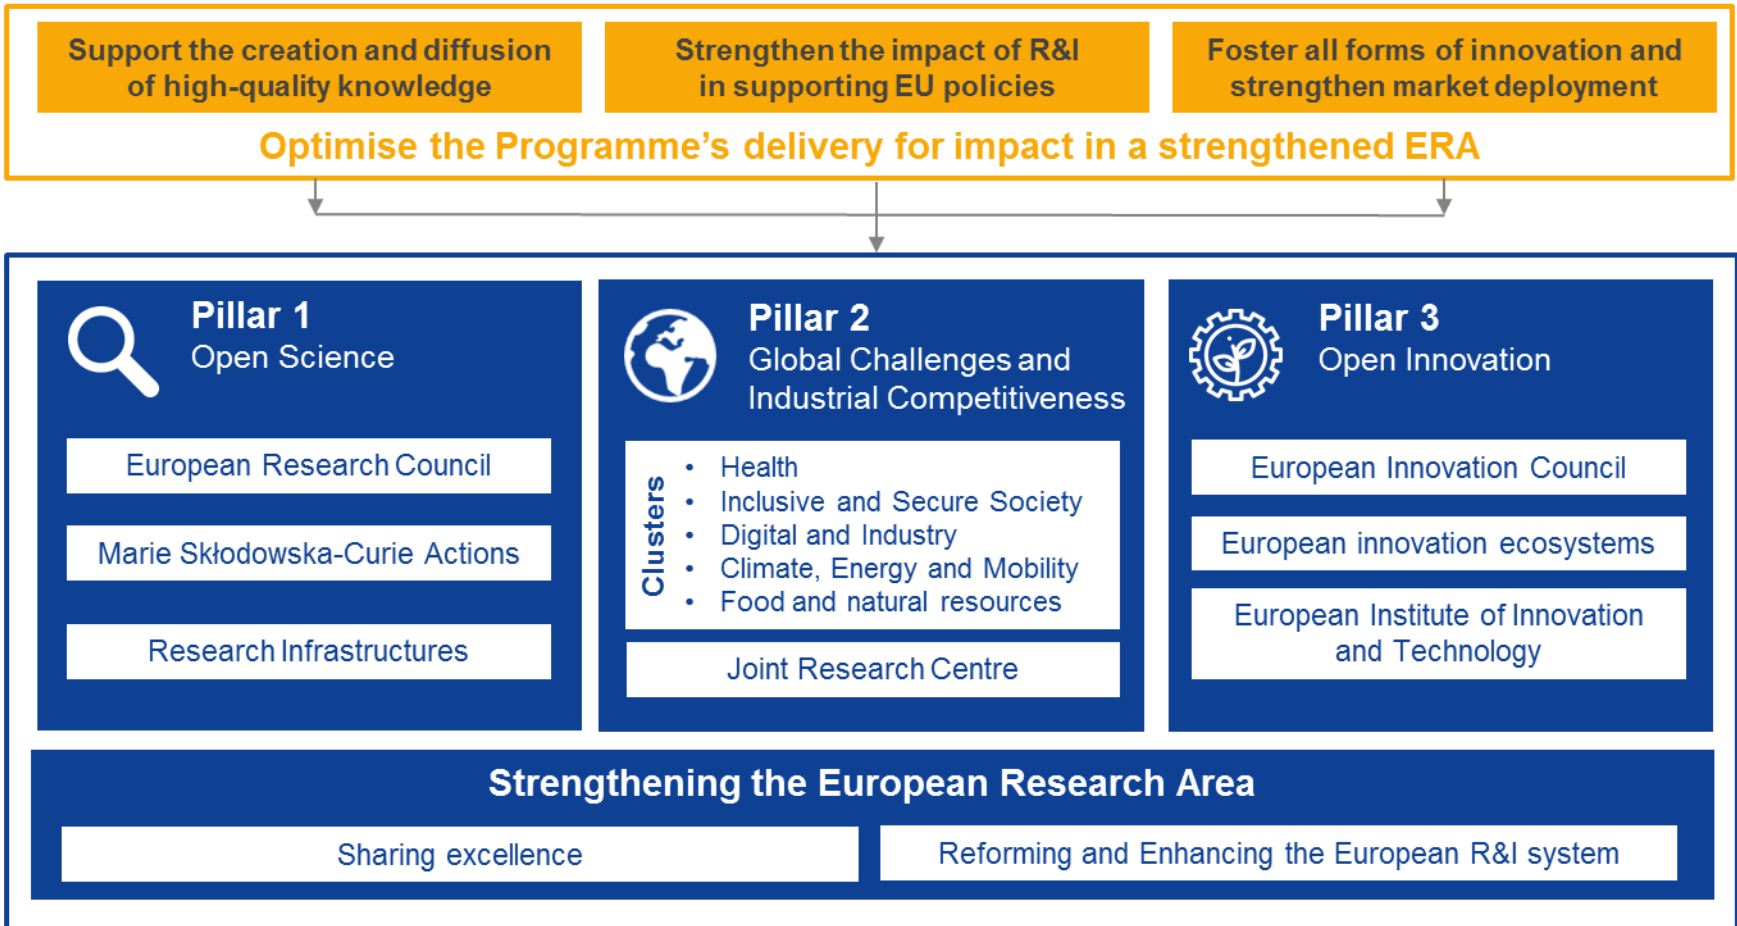

Horizon Europe

THE NEXT EU RESEARCH &
INNOVATION PROGRAMME
(2021 – 2027)

Horizon Europe: evolution not revolution

Specific objectives of the Programme

Health Cluster

Aligned with major European policy goals...

- EU Pillar of Social Rights
- EU Digital Single Market
- EU Directive on cross-border healthcare
- European One Health Action Plan against antimicrobial resistance (AMR)

...and with global strategies

- United Nation's 2030 Agenda for Sustainable Development
- World Health Organization (WHO)

Six main areas of intervention

Health throughout
the Life Course

Environmental and Social
Health Determinants

Non-communicable
and Rare Diseases

Infectious diseases

Tools, Technologies
and Digital Solutions
for Health and Care

Health Care Systems

#4 Infectious Diseases

We must protect people in the world from the threats of infectious diseases and AMR.

- Drivers for the emergence and re-emergence of infectious diseases and their spread
- Prediction, early detection and surveillance of infectious diseases and AMR pathogens
- Vaccines, diagnostics, treatments and cures
- Emergency preparedness, response and recovery measures
- Uptake of medical interventions in clinical practice, health systems
- Specific challenges in low- and middle-income countries

European
Commission

EU HEALTH BUDGET FOR THE FUTURE

- **Expected result:** higher health impact of EU actions under MFF 2021-2028 for the benefit of citizens, health professionals and policy makers

European Social Fund
Plus (ESF+)
